What is CCS?

Where is CCS?

Summary of CCS Projects Around the World

According the **Global CCS** Institute, as of July 2023, 41 operational projects are currently capturing nearly 50 megatones per annum (Mtpa).

An additional 351 projects with the ' potential to store 361 Mtpa are currently in development.

- 2023 Global Status Report

Massive Expansion of CCS Underway Worldwide
